The purpose of the Black Student Association is to unify and promote the cultural heritage of Black and Afro-Latino people. These efforts will be implemented through acknowledging the intersectionality between academic, social and political issues and problems in the lives of Black and Afro-Latino students attending Oklahoma State University.
The Freshman Action Team is an umbrella organization under the Black Student Association that engages, targets, and mentors incoming Freshmen at Oklahoma State so they are aware of the opportunities, resources, communities, and partnerships that are available to Freshmen on campus. RHA is the student lead organization within the Residence Halls built upon the foundation of diversity, inclusion, and community. We accomplish this through our four committees:

The Board of Directors creates events within the halls and develops public policy to improve the environment within the communities on campus.

The Programming Board creates campus-wide events to unify the halls all across campus. These vary from social parties to service and philanthropy groupings.

The Eco-Representatives create sustainable events based around educating other students across campus more eco-friendly ways of living.

The Marketing Committee is in charge of documenting the events through various methods of marketing. This includes: website design, social media, graphic design. and more!

There are scholarships and other benefits for leadership roles within RHA!
